

# Nonprofit Software & Services Price List

Updated: May 20, 2024

Look 2 Consulting offers 3 pricing tiers, based upon organization type:

- **GRATIS Nonprofit:** for nonprofits that DO NOT CHARGE for products
- **Nonprofit:** for registered 501(c)(3) nonprofit organization (or Canadian T3010) which charges for its products
- **List Price:** for organizations that are “for-profit”

GRATIS Nonprofit tier matches our policy of:

“If your organization does not charge for its products, then neither will Look 2 Consulting charge for its software.”

Example: a Food Pantry which distributes food for free gets licenses for our software for **free!**

Some agencies feel comfortable getting started on their own, while others prefer some help implementing the software. If you desire additional support during the process, consider the optional services listed below (offered to nonprofits at greatly reduced fees). See the appropriate column based on your type of organization.

<b>Mix-n-Match. Choose only what you want. It can even be 100% FREE for Gratis Nonprofits!</b>	<b>LIST PRICE</b>	<b>Nonprofit charging for its services</b>	<b>GRATIS Nonprofit</b>
